

Sports Premium Funding

At Sherwood, sport and health play a pivotal role in our curriculum and we have always recognised the value of these in each child's overall development. We believe that an innovative and enjoyable curriculum with a variety of sports, skills and extra-curricular activities allows children to flourish not just in PE, but in all subjects.

The funding we receive from the government to improve health and sport in school is helping us to extend our provision through the employment of professional sports coaches, buying new equipment, giving us the ability to enter more inter-school competitions, educating about healthy living and most importantly, is allowing us to engage more children in sporting activities that they want to be involved in. Our teachers are also receiving more training from coaches by working alongside and observing professionals so we can deliver high quality PE lessons.

Primary School's Sports Funding

What is Sports Premium Funding?

The government is providing £150 million per year to improve the overall quality of PE provision and health in schools. This is as a legacy of the 2012 Olympic Games. Each school receives £16000 with an additional £10 per pupil which means Sherwood will receive approximately £18200 this year. This funding will continue until 2020 and can only be spent on sport and PE provision in schools with a focus on health.

Uses of the funding include:

- Hiring specialist PE coaches to work alongside teachers.
-
- Hiring sports professionals to run extra-curricular clubs.
- Providing cover to release teachers for professional development and CPD.
- Increasing inter-school sports competitions in the community by joining the Mansfield Partnership of schools and working more closely with Meden Secondary School.
- Buying new sports equipment so that children can take part in a wider range of sports and can be successfully supported.
- Providing more places for pupils in after school clubs.
- Educating children and parents in the importance of a healthy lifestyle and healthy eating.

Funding for 2017-2018

Item or Use	Objective and	Cost	Outcomes
Autumn		Total: £7054.53

	To teach children about the importance of health and to work with children improving fitness and enjoyment		
Supply cover for CPD and coaches for		£1200	

Total Spending		18200.00	

Impact of the funding

- The profile of PE has been raised across school with an increase in the number of pupils attending sports clubs and also the number of pupil premium pupils attending clubs increased to 100% with most pupil premium children attending more than one club.
- The number of extra- curricular sports clubs has increased with the overall intention of at least one sports club happening every day and most days having two.
- This year we have participated in the following family sport competitions: Boys' football competitions, cups and league games, Multi-sports competition with family schools at Meden Academy, Sports Crew training, Girls football team matches, after school dance club in preparation for a competition, football club for multiple tournaments, gymnastics club for a competition, cheerleading club for a competition, hockey club leading to an inter-school competition, rugby club in preparation for a Mansfield area tournament and athletics tournaments at Queen Elizabeth School.
- Enhanced transition into KS3 with competitions based at Meden and Sports Leaders coming into Sherwood to teach and work with our children.
- Development of our PE curriculum to ensure we are meeting all objectives set out in the National Curriculum and challenging pupils through a natural progression from Y3-6 where children have to build on skills already learned.
- Joining the Mansfield Partnership of schools where we have access to CPD for staff, training for children to become leaders and access to a plethora of competitions across the Mansfield area.
- Increased spend on sports coaching to allow teachers to improve and add to their skills and ensure children receive the best teaching from professionals.

Target areas

- 1) To increase awareness of healthy living and healthy diet in our school and the community. This is to reduce the obesity rate in our school which is above the national average.
- 2) To increase the number of pupils attending clubs and competitions

further, including and focusing on pupil premium and reluctant children.

- 3) To improve the overall quality of PE delivered in school through CPD, working alongside professional coaches and through regular monitoring and feedback.
